Short presentation

I am an associate professor in companion animal general medicine and responsible for our teachers and researchers in the hospital's general medicine and dermatology clinic. My primary areas of interest are the clinical decision-making process, the applicability of the diagnostic tests we have available and the judicious use of antibiotics.

Primary fields of research

Urinary tract infections
Antimicrobial stewardship /Antimicrobial use
Vaccine serology and clinical application

Teaching

Basic Clinical Theory (teacher in infection control and vaccine strategies)
Medicine, Surgery and Reproduction - Small Animals (course responsible and teacher in infectious diseases)
Clinical Examination Methodology (KUM) (teacher)
General Clinical Practice (teacher)
Project supervision primarily within prevention, diagnostics and treatment of patients in general medicine
Master of Companion Animal Clinical Sciences (teacher)

Possible conflicts of interest

Member of the working groups for Antibiotic use guidelines for companion animals in Denmark, ENOVAT guidelines initiative.
Lecturer for CEVA Animal Health, ESVNU, SSI diagnostica, ESCMID, DDD, Idexx, Frederiksstad Dyrehospital.
Sponsorship of materials for projects from SSI Diagnostica, COPA Italia, Boehringer Ingelheim.
